Pricing subject to change. The tuition costs will become effective: February 1, 2015

MARI #	Hours	USCG Approved Courses	New Tuition Schedule
1261	46	Able-Bodied Seaman	\$563.00
1570	28	ARPA	\$625.00
1042	16	Basic Firefighting (STCW)	\$325.00
1330	40	Basic/Advanced Fire Fighting	\$600.00
1340	24	Bridge Resource Management	\$525.00
1040	8	First Aid / CPR--USCG approved (STCW)	\$155.00
1030	104	Master of Towing (Apprentice Mate)	\$1,500.00
1310	82	Master or Mate 100 tons	\$869.00
1430	24	Medical Care Provider	\$525.00
1071	75.5	Operator of Uninspected Passenger Vessels*	\$865.00
1043	4	Personal Safety & Social Responsibility (STCW)	\$127.00
1044	12	Personal Survival Techniques (STCW)	\$250.00
1300	30	Proficiency in Survival Craft	\$650.00
1290	40	Radar Observer Unlimited Original	\$527.00
1291	8	Radar Observer Re-certification	\$140.00
1046	23	STCW - Basic Safety Refresher	\$536.00
1041	40	STCW – Basic Safety Training	\$750.00
1510	32	Tankerman	\$408.00
1320	39	Upgrade from Master 100 to 200 Gross Tons	\$483.00
1471	4	Vessel Security Awareness	\$150.00
1560	12	Visual Communication	\$225.00

Rigger Training available on Wednesday/call for dates, SafeGulf/SafeLand/SEMS II Tuesday/call for dates, Water Survival available Fridays, and customized training to meet specific company needs may be added—Call for details.

Safety Classes/Course Costs

Pricing subject to change. The tuition costs will become effective: February 1, 2015

Course	Hours	Descriptions	Tuition
Air Monitoring/Gas Detection	2	Curriculum includes power point and video instruction different types of gas detection and procedures for monitoring hazardous atmospheres. Practical: In this hands on session the trainee will demonstrate skills proficiency in basic operation of a gas.	\$50.00
PEC Basic Orientation	8	This course includes SafeGulf, SafeLand, and SEMS II. PEC Basic was designed to take the place of multiple Operator orientations and to give each student a general idea of life and safety issues in the oil and gas industry, upstream, downstream, onshore or offshore. This one-day program meets API RP 75 & API RP T-1 requirements and provides a basic understanding at an awareness level of certain general safety information that an employee should know before entering a company facility and while performing their assigned work duties. Over 25 of the leading oil and gas operators accept this orientation as it meets their requirements. Upon successful completion of course, each student is issued a picture ID with a unique barcode. The student information is then stored in an online database.	\$213.00
Confined Space Entrant/Attendant	4	This course provides the attendees with the knowledge and skills needed to identify confined space hazards; understand and comply with regulatory requirements; implement appropriate hazard controls. Completers receive certification for Confined Space.	\$100.00
Confined Space Rescue	8	This course provides the attendees with the knowledge and skills needed to identify confined space hazards; understand and comply with regulatory requirements; implement appropriate hazard controls. Confined space rescue courses teach students to conduct safe and effective patient evacuations from their location’s permit-required confined spaces. Completers receive certification for Confined Space.	\$200.00

Rigger Training available on Wednesday/call for dates, SafeGulf/SafeLand/SEMS II Tuesday/call for dates, Water Survival available Fridays, and customized training to meet specific company needs may be added—Call for details.

Deck Handling	24	This course covers tools and equipment used in the towing industry including the towing gear, Industry Terminology, Slips, Trips and Falls, Harmful effects of noise and the safety precautions used, Man Overboard, Vessel Embarkation and Debarkation, Personal Hygiene, Hazards of Smoking, Heat Exhaustion. Winch Operation and Safety. It also includes hands on in the following areas: Proper line handling, safe winch practices, using wires and ratchets. Other components include: Awareness level: Firefighting, First Aid/CPR, SafeGulf/SafeLand/SEMS II, and Water Survival.	Customizable
DOT Hazmat Transportation	4	This course is to increase awareness and understanding of the proper transportation of hazardous materials. Familiarize the hazmat community with publications and training materials available.	\$130.00
Electrical Safety		Customizable course--Call for pricing	
Fall Protection Competent Person	16	This course will include a combination of theory and practical components to give you a real hands on approach with many types of equipment that are used for fall protection. Some of the equipment you will work with include temporary anchors, various connectors like lanyards, snap hooks and carabineers.	\$383.00
Fall Protection User	4	Personnel taking this training will learn Fall Protection based on today's industry/OSHA standards which includes basic skills in hazard recognition and control, fall hazards, fall protection systems, awareness of rescue and retrieval systems	\$239.00
Fall Protection User/Rescue	8	Personnel who work at heights in construction or general industry. This course teaches the basics of self -rescue as well as assisting a fall victim.	\$250.00
Fire Watch/ Incipient Fire/Hot Work	8	Incipient Firefighting Safety which satisfies the OSHA standards set forth in 29 CFR 1910.155(c) (41), 29 CFR 1910.57 (g) (1-4), also as per API-T-1, NFPA 10 and NFPA 600 including basic "hot work" course that covers welding, grinding, and other general areas	\$145.00
Forklift Operator	8	This course is based on OSHA standards and covers construction of the lift, inspection criteria, operational characteristics, load handling, center of gravity and the stability of the lift, fueling, general safety rules and driver evaluations.	\$144.00
Global Harmonizing	4	Global Harmonizing System is used to show your employees how hazard communication program affect them. It is critical for employees to know how to understand the hazards they are exposed to in order to prevent accidents and injuries. Use of the Globally Harmonized System of Classification and Labeling of Chemicals (GHS) is used.	\$144.00
Hydrogen Sulfide H2S	4	This H2S program teaches how to recognize when Hydrogen Sulfide is present in the work area and take necessary precautions to work with Hydrogen Sulfide safely.	\$144.00

Rigger Training available on Wednesday/call for dates, SafeGulf/SafeLand/SEMS II Tuesday/call for dates, Water Survival available Fridays, and customized training to meet specific company needs may be added—Call for details.

SCLTC—Young Memorial Marine Operations’ Schedule—Please call 985-385-7037 or 985-385-7038 for information on classes. 3-31-15

Hazard ID	4	This course provides an understanding of the formal processes required to identify, control and monitor hazards in the workplace.	\$100.00
HAZMAT Awareness	4	A fire fighter’s ability to recognize an incident involving hazardous materials or weapons of mass destruction (WMD) is critical. This course will provide fire fighters and first responders with these skills and enable them to keep themselves and others safe while mitigating these potentially deadly incidents.	\$100.00
HAZWOPER Awareness	8	This course is for general site workers who remove hazardous waste or who may be exposed to hazardous substances. It meets the requirements of OSHA 29 CFR 1910.120 for eight hours of annual refresher training for workers at sites with hazardous waste.	\$160.00
HAZWOPER (First Responder)	8	This 8-hour first responder operations level training is to certify individuals who will be involved with Hazardous Waste Operations and Emergency Response (HAZWOPER). HAZWOPER first responders at the operations level are individuals who respond to releases or potential releases of hazardous substances as part of the initial response to the site for the purpose of protecting nearby persons, property, or the environment from the effects of the release.	\$160.00
HAZWOPER Technician	24	The training received by HAZWOPER technicians must enable them to assume a more aggressive role than a first responder at the operations level in that they will approach the point of release in order to plug, patch, or otherwise stop the release of a hazardous substance. HAZWOPER technicians to receive at least 24 hours of training in addition to the First Responder Operations training and requirements.	\$260.00
HAZWOPER 40 Hour	40	This course is specifically designed for workers who are involved in clean-up operations, voluntary clean-up operations, emergency response operations, and storage, disposal, or treatment of hazardous substances or uncontrolled hazardous waste sites. Topics include protection against hazardous chemicals, elimination of hazardous chemicals, safety of workers and the environment and OSHA regulations. This course covers topics included in 29 CFR 1910.120	\$400.00
Helideck crew member	8	This course is for the person designated as helicopter lander officer on offshore installations. The course will give the participant an understanding of flight operations and prepare them to oversee landing, refueling, and takeoffs offshore.	\$127.00
Incipient Fire Fighting	4	Incipient Firefighting Safety which satisfies the OSHA standards set forth in 29 CFR 1910.155(c) (41), 29 CFR 1910.57 (g) (1-4), also as per API-T-1, NFPA 10 and NFPA 600	\$120.00

Rigger Training available on Wednesday/call for dates, SafeGulf/SafeLand/SEMS II Tuesday/call for dates, Water Survival available Fridays, and customized training to meet specific company needs may be added—Call for details.

Job Safety Analysis--JSA	4	Job safety analysis (JSA) is a procedure which helps integrate accepted safety and health principles and practices into a particular task or job operation. In a JSA, each basic step of the job is to identify potential hazards and to recommend the safest way to do the job. Other terms used to describe this procedure are job hazard analysis (JHA) and job hazard breakdown.	\$144.00
Medic First Aid/CPR Plus AED	4-Jan	This course is a CPR, AED, and first aid training program designed specifically for the occupational first aid provider. The program is extremely flexible and will help employers meet OSHA and other federal and state regulatory requirements for training employees in how to respond and care for medical emergencies at work. The course tuition includes textbook, pocket mask, and Medic First Aid certification card.	\$100.00
Bloodborne Pathogens	2	This course is to familiarize the student on an awareness level the primary concerns of bloodborne pathogens and how they are transmitted including direct contact, indirect contact, respiratory droplet transmission, and vector-borne transmission. It includes how to prevent, reduce, and handle exposure.	\$50.00
Norm Awareness	4	This course provides an overview of Naturally Occurring Radioactive Material (NORM) and their hazards. The module covers NORM in industrial environment, types of radiation, their hazards and measurements, health effects of radiation, risks involved and ways to minimize these risks, and safe practices to follow when working with NORM.	\$144.00
OSHA 30 General Industry	30	This course is a comprehensive safety training program designed specifically for safety directors, foremen, and supervisors; the program provides complete information on OSHA compliance issues. In addition to learning about safety and health hazards in the workplace, students will also learn about OSHA, employer responsibilities, and worker rights.	\$600.00
PEC Core Compliance	24	This course brings together the health, safety and environmental training certifications (OSHA and BOEMRE) most requested by oilfield operators and other host employers. PEC Core Compliance is SafeGulf and SafeLand accredited and is accepted by every major and most mid-major operators in the U.S.A, Canada, and Qatar. This in depth training program will ensure your employees are compliant with your customers', OSHA and BOEMRE (Bureau of Ocean Energy Management, Regulation and Enforcement) safety training requirements. Material presentation is structured to build on common content in a high intensity three day format. The instructor led interactive training will certify you in training levels beyond awareness level. Each student receives documentation of completion in the form of a PEC picture ID and a certificate of completion. The student's information will be entered into the PEC Training Tracker database. This documentation is available via the internet through the PEC Training Tracker site. The course tuition includes the PEC picture ID certification card.	\$570.00

Rigger Training available on Wednesday/call for dates, SafeGulf/SafeLand/SEMS II Tuesday/call for dates, Water Survival available Fridays, and customized training to meet specific company needs may be added—Call for details.

This documentation is available via the internet through the PEC Training Tracker site. The course tuition includes the PEC picture ID certification card.	\$190.00
Personal Survival Single Egress	8	This customizable course is designed to train students in personal survival techniques in the event of a helicopter egress. Students receive both classroom and practical demonstrations regarding PPE including differing lifejackets including immersion suits, flotation techniques, life raft entry, stepping off from a height, treading water, and single helicopter egress. The course is customizable by adding an exam, which makes this course American Petroleum Institute approved.	\$173.00
Personal Survival/HUET	12	This course is designed to train students in personal survival techniques in the event of a helicopter egress. Students receive both classroom and practical demonstrations regarding PPE including differing lifejackets including immersion suits, flotation techniques, life raft entry, stepping off from a height, treading water, and multiple helicopter egression including use of both 2- and 4-point harnesses.	\$260.00
Rigging	6	This course provides awareness in the construction, use, and care of fiber and wire rope; splices in fiber and wire rope; use of terminal fittings on wire rope; rigging of block and tackles,; and knot-tying. Also covers the application of seamanship and rigging. Course with the addition of a written exam is certified by the American Petroleum Institute (API) standards.	\$250.00
Rig Pass/Safegulf/SafeLand	8	Safety awareness course was designed to take the place of multiple Operator orientations and to give each student a general idea of life and safety issues in the oil and gas industry (upstream, downstream, onshore or offshore).	\$253.00
